Good morning,

The Pre-RD group is currently stationed at RM 11.5 locating AR-A31, near the Broadway Bridge. The receiver is an acoustic release and the crew is preparing to ping the bouy. There are 4 left receivers to locate today. The crew plans to locate the acoustic releases (AR-A31, 32, 33) first and then retrieve AR-A34 last, which is tethered to shore. Fish tracking activities bare expected to be completed this afternoon.

Jonni
